FEATURES: Status Line • Baud Rates Up to 19,200 • Addressable Cursor • 14 Key Numeric Pad • Line Drawing Capability • Self Test • Time-of-Day Clock • Read Terminal Status • Line Lock

The DM10 is a microprocessor based smart terminal for use in those applications that require more capabilities than typically found in the dumb terminal. Extensive capabilities like those featured above, plus a 25th status line, sets the DM10 apart from the great majority of the low end smart terminals in the market today.
