RELEASE NOTES

FOR

FORTRAN GRAPHICS PACKAGE

Version 1 QJ647

Version 1 QJ648

June 1977

To order additional copies of this document, contact the Software Distribution Center, Digital Equipment Corporation, Maynard, Massachusetts 01754

Digital Equipment Corporation • Maynard Massachusetts
Because of minor differences between Version 2 and Version 3 of RSX-11M, the following changes should be made to the FORTRAN Graphics Software by those who wish to build a host/satellite configuration with RSX-11M Version 3 in the host computer. Since the FORTRAN Graphics Software is supplied in source form, the changes shown below should be made using the Editor, prior to attempting any build procedures. The two modules affected are GRPACK.CND and GRSUBS.MAC. The changes to be made are indicated by the underlined text shown below.
